TECHNICAL BULLETIN

Cooling System –
Draining, Filling and Bleeding –
SRO Time RevisionMODEL 2000 MY-ON
S-TYPE

VIN L00001-ON

Issue:

This Technical Bulletin has been issued for information only, to inform dealers of a change in the SRO time allowance for the coolant drain, refill and bleeding procedure.

Note: The adjustment in the SRO allowance has not changed the workshop procedure.

The SRO time for 'cooling system draining, filling and bleeding' has been re-evaluated in line with engineering specifications.

The new SRO times will affect a large number of workshop procedures where coolant drain and refill is used which contain the SRO.

Five typical examples shown:

- * Cylinder head gasket left hand renew - 12.29.02.
- * Oil cooler renew - 12.60.68.
- * Timing cover renew - 12.65.01.
- * Evaporator unit renew - 82.25.20.
- * Heater matrix renew - 82.25.10.

Note: This SRO list is representative and not inclusive.

Action:

For the cooling system draining, filling and bleeding procedure, refer to Global Technical Reference (GTR) Workshop Manual section 303-03 (2000-02 MY) or 303-03A normally aspirated engines or 303-03B for supercharged engines (2003 MY-on).
