

TECHNICAL BULLETIN

Fuel Injectors – Identification

18-46

MODEL All AJ6 (4.0L) and AJ16

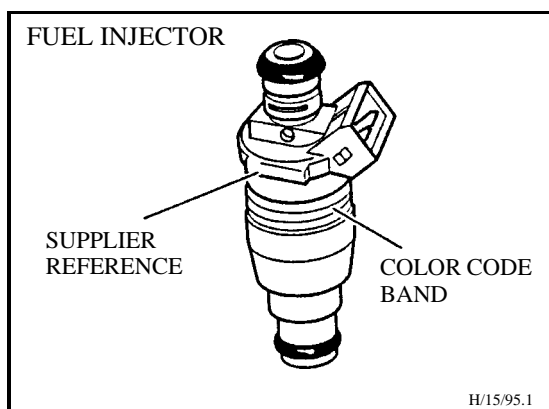

DATE 2/95

ISSUE:

Original equipment fuel injectors are color coded to aid in assembly during engine production. Fuel injectors supplied as service parts do not follow the same color coding format, but they can be identified by the supplier's reference number stamped on the injector.

ACTION:

Refer to this bulletin to identify injector applications by referencing the supplier reference number to the Jaguar part number. The locations of the supplier reference numbers and the color code band is shown in Illustration 1.

FUEL INJECTOR IDENTIFICATION

ENGINE	PART NUMBER	PRODUCTION COLOR	SERVICE COLOR	SUPPLIER PRODUCTION REFERENCE	SUPPLIER SERVICE REFERENCE
AJ6 4.0L	EBC 4430	Green	Green	D3155KA	D3155AA
AJ16 N/A	DBC 10423	White	Green	D3156KA	D3156AA
AJ16 S/C	DBC 11041	Red	Green	D3165KA	D3165AA
