Interior Trim Cleaning –
Recommended Products & Procedures

MODEL 1995-97 MY
Sedan Range
VIN

ISSUE:

Damage to vehicle interior trim can result if Jaguar recommended products and procedures are not used.

ACTION:

Ensure that dealer staff are fully aware of the recommended products and procedures for the preparation and cleaning of vehicle cloth and leathers. Make subcontractor personnel aware of the recommended products and procedures by supplying them a copy of this bulletin to ensure that Jaguar standards are met.

Refer customers to the owner's handbook for proper care and maintenance of trim.

Observe the following product and procedures grouped by material and application.

CLOTH

HEADLINER, UPHOLSTERY, TRIM & CARPETS:

Products:	Jaguar Upholstery Cleaner	JLM 9870
	Cellulose sponge	JLM 9878
	Polishing cloth	JLM 9877

Procedure:

Headlining preparation:

The headliner should be lightly brushed with a soft bristle brush and vacuum cleaned regularly to remove any dust from the fabric.

Upholstery and Trim - preparation:

The upholstery and trim should be lightly brushed with a soft bristle brush and vacuum cleaned regularly to remove any dust from the fabric.

Carpets - preparation:

Carpets should be brushed and vacuum cleaned regularly to remove any dust and grit. Except for small areas of dirt, the carpet mats should be removed from the vehicle to avoid damaging other trim.

Headliner, upholstery, trim & carpets - cleaning:

- Shake the bottle and adjust the nozzle to spray at a distance of 9 in. (24 cm) onto a small area.
- The cleaner will foam. Allow the foam to collapse and then wipe the area clean with a damp absorbent cloth or sponge.
- If further wiping of the area is necessary, rinse the cloth or sponge in clean water before further use.
- Stubborn dirt may require light scrubbing with a soft brush and/or another application of cleaner.
- Always use a clean white cloth since dyed materials may leave their color on the affected area. Change the area of the cloth being used frequently, to avoid reapplying dirt to the fabric.
- Avoid applying too much water to the area being cleaned.

⚠ WARNING: Jaguar upholstery cleaner must be kept away from children. If the cleaner comes into contact with skin or eyes, wash thoroughly with clean running water. If swallowed, seek medical attention.

LEATHER

UPHOLSTERY & TRIM:

Products:	Jaguar Leather Cleaner	JLM 9869
	Cellulose sponge	JLM 9878
	Polishing cloth	JLM 9877

Procedure:

Upholstery and Trim - preparation:

Vacuum clean the leather upholstery and trim regularly, to remove dirt and grit from the seams and folds.

Upholstery and Trim - cleaning:

Apply the leather cleaner undiluted to the affected area, with a small brush or clean cloth, and let it soak in for a few minutes.

Wipe the area clean with a slightly damp sponge or cloth.

Change the area of the cloth being used frequently to avoid reapplying dirt to the leather.

Wipe dry with a clean white cloth.

⚠ WARNING: Jaguar leather cleaner must be kept away from children. If the cleaner comes into contact with skin or eyes, wash thoroughly with clean running water. If swallowed, seek medical attention.

General notes:

Do not use any cleaner other than those listed above.

Do not use cleaners on electrical equipment where there is a risk that liquid or foam may enter switches, etc.

Stains are easiest to remove as soon as possible after they occur.

Store cleaners at room temperature and prevent from freezing.

WARRANTY POLICY:

Interior trim that is damaged or which has deteriorated due to improper care and maintenance is not covered under warranty. Claims for the replacement of trim that has not been cared for properly will be charged back.
