**Hood Ornament – Transit Screws – Must
Be Removed**

MODEL 1995-96 MY
Sedan Range

VIN
720001-ON

ISSUE:

The optional “Leaping Jaguar” hood ornament on 1995 MY Sedan Range vehicles is fitted with two transit screws to prevent damage during shipping. **THESE SCREWS MUST BE REMOVED AND DISCARDED BEFORE THE VEHICLE IS PUT INTO SERVICE.**

To minimize the risk of personal injury, the Leaping Jaguar is designed to swivel and flex on the base in the event of a heavy impact.

**IMPORTANT: LEAPING JAGUAR HOOD ORNAMENT TRANSIT SCREWS
MUST BE REMOVED BEFORE THE VEHICLE IS PUT INTO SERVICE**

ACTION:

Remove and discard the hood ornament transit screws on all 1995 MY Sedan Range vehicles before the vehicles are put into service.

- Open the hood and remove the two #2 posi-drive transit screws located immediately to the front and rear of the nylon hood ornament retaining nut.
- Do not remove the nylon hood ornament retaining nut.

NOTE: Be careful not to drop the transit screws into the hood panel cross member.

Replacement hood ornaments are also shipped with transit screws to prevent damage during shipping.

- Remove the transit screws after the ornament is fitted.
