Security System Transmitter – Battery Replacement

MODEL 1995 MY
Sedan Range
VIN 720001-ON

ISSUE:

Attempting to pry the battery access cover off of the security system transmitter may cause the transmitter to separate and damage electronic components.

ACTION:

To prevent damage when removing the battery access cover of 1995 MY Sedan Range security system transmitters, use the following procedure.

SECURITY SYSTEM TRANSMITTER BATTERY ACCESS COVER REMOVAL

1. Insert a small (1/16" thick) screwdriver between the access cover and body (Illustration 1).

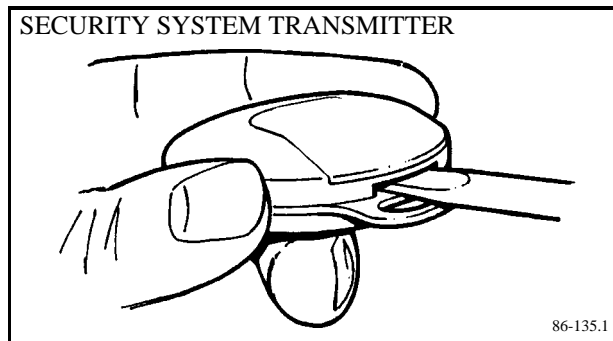

ILLUSTRATION 1

2. Push the screwdriver straight in to release the lock as shown in Illustration 2.

CAUTION: Twisting the screwdriver or attempting to pry the cover open will damage the transmitter.

- The internal spring will push the access cover open.

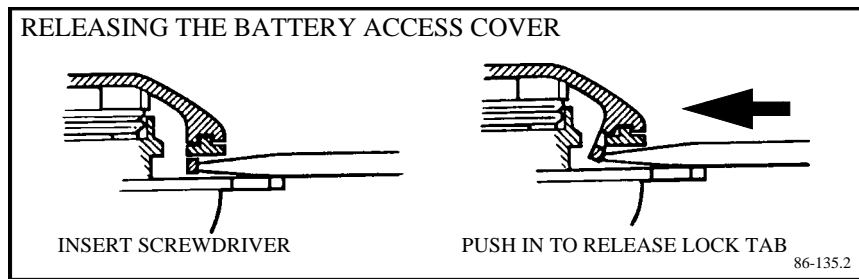

ILLUSTRATION 2

NOTE: Dispose of used batteries according to local laws.
